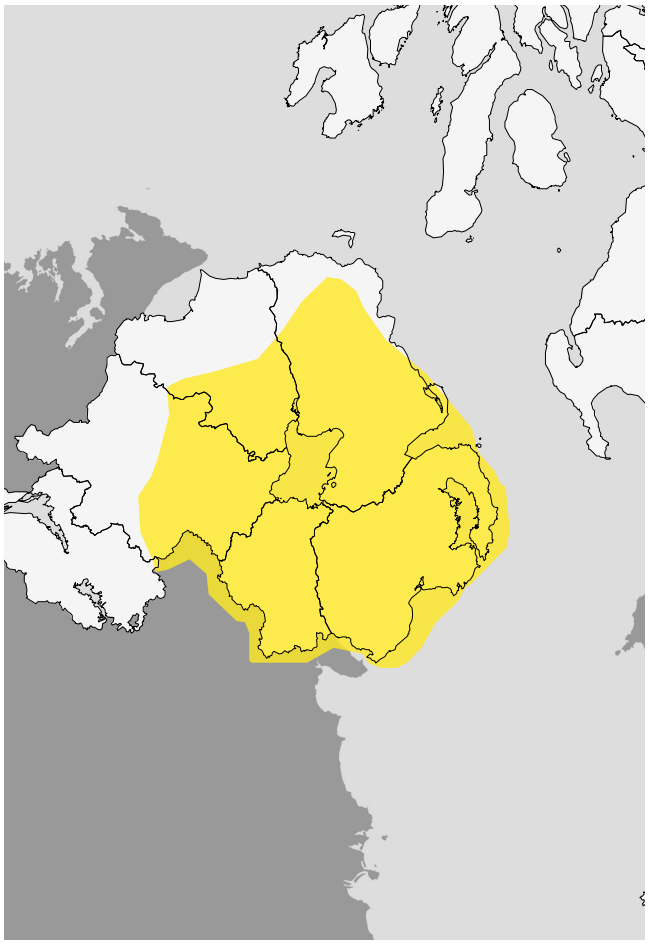
Yellow warning
Snow & Ice

Between
21:00 Sat 4 Jan 2025 and
18:00 Sun 5 Jan 2025



Ice and snow leading to disruption to transport and some infrastructure

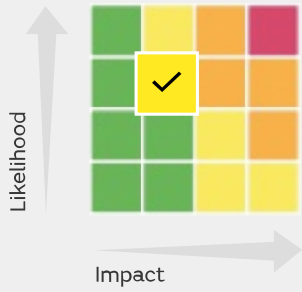
What to expect

- Some roads and railways likely to be affected with longer journey times by road, bus and train services
- Some injuries from slips and falls on icy surfaces
- Probably some icy patches on some untreated roads, pavements and cycle paths

Further details

Spells of rain, sleet and snow will develop from the south late Saturday before clearing through Sunday. Coastal areas will likely see rain, but inland and over higher ground, sleet and snow is more likely. Locally 1-3 cm of snow is possible away from coasts, with 5-10 cm possible over the Mournes, Sperrins and Antrim Hills. Ice will be an additional hazard, especially on untreated surfaces.

What should I do?



Medium likelihood of low impacts

Further Details (continued)

Snowy, wintry weather can cause delays and make driving conditions dangerous, so to keep yourself and others safe: plan your route, checking for delays and road closures, amending your travel plans if necessary; if driving, leave more time to prepare and check your car before setting off; make sure you have essentials packed in your car in the event of any delays (warm clothing, food, water, a blanket, a torch, ice scraper/de-icer, a warning triangle, high visibility vest and an in-car phone charger).

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

People cope better when they have prepared in advance for the risk of power cuts or being cut off from services and amenities due to the snow. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

Be prepared for weather warnings to change quickly: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.
